

## Ebizoncloud Oracle AWS Cloud Services

Ebizoncloud is a leading provider of Oracle and AWS cloud services:

### *ORACLE FUSION MIDDLEWARE & FUSION APPLICATIONS ON AWS*

#### Services

Ebizoncloud positioned to help clients migrate and host Oracle Fusion Middleware and Fusion Applications on the Amazon Web Services (AWS) Cloud platform because:

- We are an Oracle Silver Partner specialized in Oracle Fusion Application and Oracle Fusion Middleware, JD Edwards and Oracle Database
- We are an AWS Cloud Consulting Partner recognized by AWS with Oracle Competency
- We have completed many Oracle Fusion Middleware cloud migrations to AWS supporting production workloads

**EbizonCloud's Oracle Fusion Middleware and Fusion Applications Hosting Service delivers**

- Lower cost of ownership compared to on-premises or traditional hosting solutions

- Robust performance to meet complex business operations
- Strong security solutions on the AWS cloud to meet industry requirements
- Improved reliability and availability compared to traditional hosting solutions

## **AWS Support**

EbizonCloud's Oracle Fusion Middleware and Fusion Applications Hosting Service revolutionizes the way in which businesses deploy and support Oracle Fusion Middleware and Fusion Applications. By delivering Oracle Fusion Middleware and Applications on cloud Infrastructure as a Service (IaaS), and by changing the way the application is installed, maintained and managed, Ebizoncloud enables enterprises to operate complex solutions on the cloud with much greater efficiency.

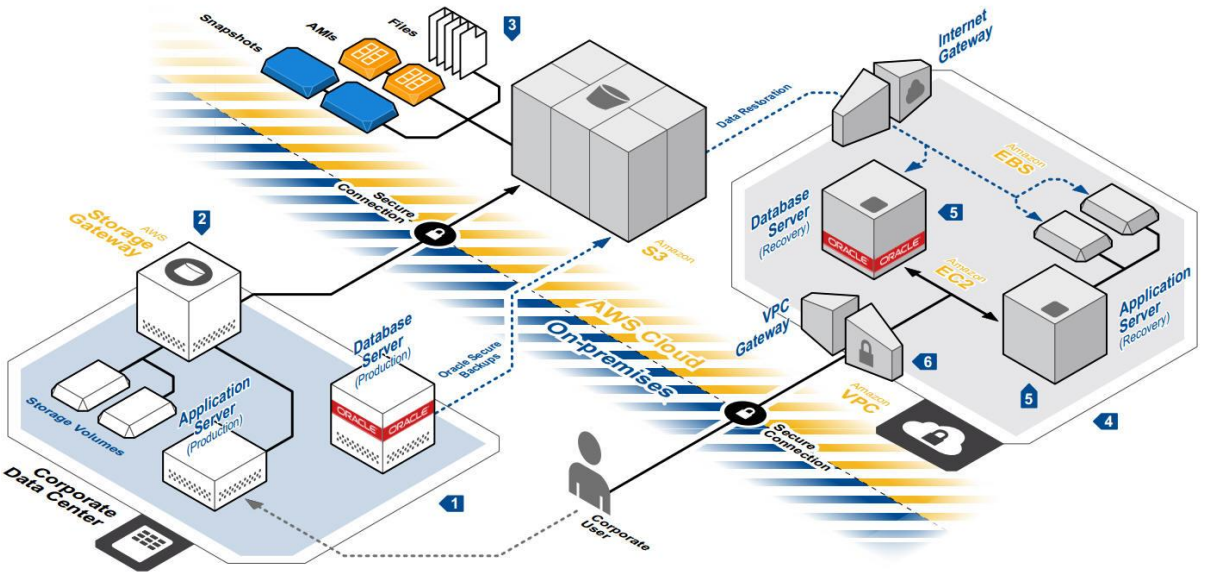

Components of the solution include:

- Assessing the existing Fusion Middleware and Fusion Applications implementation and developing a roadmap to migrate to the cloud
- Designing the AWS cloud infrastructure storage for network, performance, cost and security requirements
- Migrating existing Oracle Fusion Middleware and Fusion Applications environment, or building new Oracle Fusion Middleware and Fusion Applications in the AWS cloud
- Cloud Managed Services to operate the Oracle Fusion Middleware and Fusion Applications environment on AWS.
